and the End of Time

The End Times Seminar

For the past 40 years, interest in end-time events has escalated to levels unprecedented in modern times.

Many within Christendom declare that the coming of Christ is imminent.

They insist that world events are lining up to trigger the fulfillment of Bible prophecies.

Christians are prodded to support the nation of Israel as God's chosen people.

A host of books and movies predict the coming Rapture and warn people not to be "left behind."

The seminar addresses such questions as:

Will there be a "rapture"?

What about the "Tribulation"?

Will the Antichrist soon appear?

Is the battle of Armageddon soon to be waged?

What about the Millennium?

Has the Kingdom been established?

Will Jesus return to Earth and reign on His throne for 1,000 years?
