A Seminar that Examines the Creation/Evolution Controversy in Light of Reason and Revelation

**Session I: Creation Makes Sense**
Is the General Theory of Evolution a fact of science? What do the laws of science actually have to say about creation and evolution?

**Session II: Alleged Proofs of Evolution—Exposed**
Do the “proofs” of evolution really prove evolution, or have millions been duped by evolutionary hoaxes? What about the fossil record, homology, and embryology? And did we really evolve from ape-like creatures, or were we specially created by God?

**Sessions III & IV: Dinosaurs: The Poster Children of Evolution (Parts 1 & 2)**
Nothing has been used more to promote the theory of evolution than dinosaurs. But do dinosaurs “prove” evolution? What do the Bible, history, and true science have to say about the one-time co-existence of dinosaurs and humans?

**Session V: Creation: In Six Days or Six Billion Years?**
Did God create the Universe and everything in it “in six days” or “six billion years”? How does the Bible answer this question? What did Jesus teach about creation?

**Session VI: Wonders of God’s Creation**
According to the General Theory of Evolution, over billions of years of non-intelligent, aimless evolution, the Earth became filled with a variety of amazing, wonderfully designed animals. Reason and common sense demand a better explanation. The superbly designed animals all around us call for a Creator.

Eric Lyons is a graduate of Freed-Hardeman University, where he earned a B.S. with a double major in Bible and history, and an M.Min. Eric, his wife Jana, and their three children (Bo, Micah, and Shelby) live and worship in Wetumpka, Alabama, where Eric works with the youth of the Wetumpka church of Christ.
