How often have you heard people say—

- “You can’t be sure you have the Bible in its original form.”
- “The Bible has lots of errors and mistakes since it was written and transmitted over several thousand years.”
- “Look at how many translations there are—and they all differ with each another.”

Skeptics, atheists, and modernists have waged an aggressive war against the Bible for over a century.

They have succeeded in undermining public confidence in the authenticity of the text of the Bible. The faith of our young people who attend state universities has been seriously eroded.
